THE INSURANCE LAW, 2010
(LAW 32 OF 2010)

THE INSURANCE (REPORTING) REGULATIONS, 2013

In exercise of the powers conferred by section 40 of the Insurance Law, 2010, the Governor in Cabinet makes the following Regulations -

1. These Regulations may be cited as the Insurance (Reporting) Regulations, 2013.

2. In these Regulations -

“Cayman risk” means risks related to an insurer’s domestic business;

“commissions paid” means remuneration paid to a salesperson, broker or agent for the placement of an insurance contract with the insurer;

“catastrophe model” means a model with storm surge operational within the model, including RMS, AIR, Eqecat Models, or any other model approved by the Authority;

“deposit accounted items” means insurance related transactions that do not meet the accounting definition of risk transfer;

“gross written premium” means in the case of external insurers the gross written premium related to Cayman risk less refunds collected, and in the case of locally incorporated insurers the gross written premium related to worldwide risk less refunds issued;

“IBNR” means incurred but not reported;

“insurance manager” means the holder of a valid insurance manager licence under section 4(3)(g) of the Law;

“manager” means a person, other than the approved insurance manager who handles, controls or directs the business operations of an insurer;

“prescribed management letter” means written correspondence from the auditor with respect to any material audit related matters which should be brought to the attention of the Authority;

“recognized rating agency” means A.M Best Company, Fitch, Moody’s, Standard and Poor’s, and any other agency approved by the Authority;

“regulated” means regulated in a jurisdiction and by a body both recognized by the Authority for purpose of these Regulations;
“reinsurance premium ceded” means the total premium paid or payable to reinsurers in respect of risk transferred to such reinsurers by an insurance company under reinsurance contracts;

“salvage recoveries” means the recoveries resulting from the right of an insurer who has taken over another's loss also to take over the other person's right to property against that loss;

“subrogation recoveries” means the recoveries resulting from the right of an insurer who has taken over another's loss also to take over the other person's right to pursue remedies against a third party;

“unpaid claims” means claims incurred but not yet paid;

“unearned premium reserve” means an insurer’s liability for its unearned premium as of any given valuation date; and

“worldwide risk” means the entire insurance business of the insurer and includes its Cayman risk.

3. The forms set out in the Schedule are prescribed for the respective reporting purposes provided for in the Law and in these Regulations as specified in the respective headings to each of such forms.

4. A licensee existing at the date of the coming into force of these Regulations shall comply with these Regulations at the next reporting date due but not less than twelve months from the date of the Regulations coming into force, unless otherwise prescribed by these Regulations.

ACTUARIAL VALUATION (LONG TERM)

Name of Company:

I, [Name], am an Actuary meeting the requirements for approval by the Authority and member of [Institute] and meet the requirements for signing statements of actuarial opinion regarding insurance company’s statutory Annual Statements.

I have been requested by [Name of company] to render this opinion.

A. Scope
I have examined the reserves listed below as shown in the audited financial statements of the company as at [insert date].

B. Loss and loss expense provision (gross)
My examination of the reserves was based upon data and related information prepared by the Company. In this regard I relied upon [insert name of Financial controller/CFO] as to the accuracy and completeness of the data. I evaluated the
data used directly in my analysis that fell outside of the range of reasonable possibilities. In performing this evaluation I have assumed that the Company -
a. used its best efforts to supply accurate and complete data; and
b. did not knowingly provide any inaccurate data.
In other respects my examination included the use of such actuarial assumptions and methods and such test of calculations as I considered necessary.

My review was limited to Item A above and did not include any analysis of income statement items or other balance sheet items. My opinion on the reserves is based upon the assumption that all reserves are backed by valid assets which have suitably scheduled maturities and/or adequate liquidity to meet cash flow requirements.

I do not believe that there are significant risks and uncertainties that could result in materials adverse deviation in the loss and loss adjustment expense reserves. I consider [insert amount] to be material for this company, calculated as [X]% of shareholder equity. The absence of such risks and uncertainties at this time does not imply that factors will not be identified in the future as having been a significant influence on the Company’s reserves.

C. Opinion
In my opinion the amounts recorded in the audited financial statements above:

a. Are consistent with the amount computed in accordance with [insert Institute Standards] regarding long term insurance reserves and relevant standards of practice promulgated by [insert name of Institute/standard making body];

b. Make reasonable provision for all insurance obligations of the Company under the terms of its contracts and agreements.

In my opinion:

a. The methods and procedures used in the verification of the valuation data are sufficient and reliable and fulfill acceptable standards of care;

b. The valuation of actuarial and other policy liabilities has been made in accordance with generally accepted actuarial practice with such changes as determined and directions made by the Authority;

c. The methods and assumptions used to calculate the actuarial and other policy benefit liabilities are appropriate to the circumstances of the company and the said policies and claims;

d. The amount of the policy benefit liabilities represented in the balance sheet of [name of company] makes proper provision for the future payments under the company’s policies and meet the requirements of the Insurance Law and other appropriate Regulations.

In my opinion, the amounts shown in the balance sheet on account of unamortized
acquisition expenses and on account of unpaid loss and loss adjustment expenses are based on actuarial assumptions which are appropriate to the financial statements of the Company prepared in accordance with generally accepted accounting principles and computed by sound actuarial methods consistently applied and are fairly stated.

Provisions have been made for all actuarial reserves and related items which ought prudently to be established.
