1 INTRODUCTION

Regulatory Enhanced Electronic Forms Submission (REEFS), is an online portal for electronic submission of required financial services information to the Cayman Islands Monetary Authority (“the Authority”) as well as providing payments information where applicable.

2 FORM INFORMATION

- The AML/CFT Risk Controls – Insurance form is to be completed by every Insurance Licensee (who is commonly referred to as “entity or Licensee” for purposes of this form) in REEFS, on or before 13 January 2020.

- For purposes of this form, “client” and “customer” are used interchangeably and relate to anyone with or for whom insurance business is transacted.

- The dropdown ‘+’ sign to the left hand side of the page, allow the entity to insert multiple entries when more than one is applicable for each category, throughout this form.

3 ACCESSING AND SUBMITTING THE FORM

3.1 UNDERSTANDING REEFS ROLES AND WORKFLOWS

In REEFS, roles are required to be assigned to allow users to perform certain tasks (assigned in the Workflow). These roles give the users permission to prepare, edit, approve, review and submit etc. based on Workflows.

Click here for guidance on how to create User accounts, Assign Roles and details of Workflows

3.2 ROLES REQUIRED FOR ARC-158-14

The following Roles are required to have access to this form:

- Preparer role
- Reviewer role
- Submitter role
3.3 WORKFLOW USED FOR (ARC-158-14)

The following Workflow is associated with ARC-158-14. It outlines the steps that must be followed on both the Industry-side and the Authority-side for preparation, review, submission etc of the form. All steps in the workflow must be complete (validated multiple times) even if one user has inherited roles and can perform all steps in the workflow.

Steps taken on Industry-side:

1. Once a new form is opened the status of the form is listed as **Available**. The ‘Preparer’ then begins to populate the form with the required data
   a. Once the data has been entered, the ‘Preparer’ validates the data, and the form can then be saved.
      i. Once the form has been validated by the ‘Preparer’, the status changes to **Prepared**, and the form is sent up the chain to the ‘Reviewer’ accordingly.
1. Once the ‘Reviewer’ has reviewed and validated the form, the ‘Reviewer’ either accepts or rejects the form.
   a. If the **Reject** option is selected, the form is returned to the ‘Preparer’ for further review
b. If the Accept option is selected, the status of the form changes to ‘Ready to Submit’, and the form is then elevated to the 'Submitter'.
   i. Once the 'Submitter' has reviewed the validated the form the 'Reviewer' either submits or rejects the form.
      1. If the Reject option is selected, the form is returned to the 'Reviewer'.
      2. If the Submit option is selected, it then goes to the Payment processor (if it is applicable).
         a. Once the payment (if applicable) has been processed, the status of the form then changes to Submitted, and should now be seen on the Authority’s end under the "view filing" tab.

Steps taken on Authority-side:
1. Once the form has been Submitted to the Authority, a Junior Analyst/Analyst can then claim the form to begin the review process.
   a. Once the form has been claimed, the status of the form changes to Claimed.
      i. The form is then reviewed and validated. The form can then be either rejected or approved.
         1. If the Reject option is selected, the form is returned to the ‘Submitter’ (Industry) to be resubmitted.
         2. If the Approve option is selected, the form is escalated up to a Senior Analyst/Chief Analyst for final review, and the status of the form changes to Waiting Final Approval.
            a. Once the form is reviewed by the Senior/Chief the form is validated and is either rejected or approved.
               i. If the Reject option is selected, the form is returned to the Junior Analyst/Analyst for further review. At this time the Junior Analyst/Analyst can further “reject” it to send back to Industry accordingly.
               ii. If the Approve option is selected the status of the form changes to Approved.

3.4 SUBMITTING / RESUBMITTING

5 REUSING PREVIOUS SUBMISSIONS

What is “XBRL”?

XBRL (eXtensible Business Reporting Language), is a standards-based way to communicate and exchange business information between business systems.

Data can be used from a previous reporting period or submission instead of starting from fresh. You must have entered data into at least one form using the online portal and have gone through a successfully validated submission.

- Example: Rapidly re-using the Anti-Money Laundering officers application for (MLO-154-99)

- Process:

  1. Select “Submitted Requests” to view previously submitted forms and select the one that contains the data.
  2. Click on “Download: XBRL Instance” in the top right corner and save the file to your PC or network drive.
  3. Close the form.
  4. Select “New Request” and select the required new/empty form (e.g. MLO-154-99).
  5. Click on “Upload: XBRL Instance” in the top right corner.
  6. Click on “Browse...” and navigate to the file that was saved in step 2 above (usually in the "Downloads" folder).
  7. Click “Upload”.
  8. The system will then copy each data point from the XBRL file into the fields of the current form.
  9. The system displays the message “Import Successful” to indicate that the data was all copied OK.
  10. The user can then review and make changes to the data.
  11. Proceed as usual through the rest of the validation process.

These instructions can be used for New Application forms, Change Request forms and Financial Returns
