CASH FLOWS RETURN SCHEDULE .....	5
Descriptions and Guidance.....	5
ANNEX I – ISO 3166 COUNTRIES.....	7

## INTRODUCTION

The Cash Flows Return is comprised of one (1) schedule and is intended for reporting relevant cross-border payments. For the purpose of this return, relevant cross-border payments include wire transfers and remittances but may also include other forms of electronic transfers and payment systems where monies are transferred into and out of the Cayman Islands.

### ***Scope of Application***

The Cash Flows Return is applicable to all entities granted a Category "A", "B", or Restricted "B" Banking license under the Banks and Trust Companies Law (2018 Revision).

### ***Reporting Schedule***

The Cash Flows Return is to be filed within one month after each calendar quarter.

### ***EXCEL Template Submission***

The Cash Flows Return form is only available within the Regulatory Enhanced Electronic Forms Submission<sup>1</sup> system ("REEFS"), where an Excel-based template can be downloaded from the upper-right menu of the Cash Flows Return Schedule. The Excel template is macro-enabled and must be run on a computer which supports Microsoft Excel 2003 or later and has the macro security level set to allow macros to be executed within the form.

### ***Drop-Down Lists for Country and Payment Data Included***

When using the Excel template, reporting entities should ensure that country names conform to the drop-down list, which is the English short name in the ISO 3166 International Standard<sup>2</sup>. Any country name that is not recognized as part of this standard or the country drop-down list will generate an error during the validation process and require correction.

The reporting entities should also ensure that they use the available options in the drop down list for Payment Data Included (SWIFT, CHAPS, BACS, FASTER PAYMENTS, CIPS, RIPPLE, and Other). If payment providers are used that do not appear in the drop down list, please select "Other" and then complete the "Payment Data Other" field with the name of the payment provider. An error will also be generated for any payment data that does not match the available options in the drop-down list.

### ***Adding and Removing Rows***

When adding or removing rows to the Excel template, the additional rows will be added to or deleted from the bottom of the table.

For the Cash Flows Return in REEFS, the additional rows will be added below the currently selected row and when removing rows, the currently selected row will be deleted. Reporting entities should take care to ensure that they do not delete data unintentionally when removing a large number of rows. An example of row control buttons is shown in

<sup>1</sup> See <https://www.cima.ky/reefs-faq> for user guides, REEFS access and other useful information.

<sup>2</sup> See the ISO website for the list of countries (<https://www.iso.org/obp/ui/#search/code/>)

Figure 1, below.

**Figure 1: Row Control Buttons**

CFR-044-99 Cash Flows Return	
Country	
(i)	
+ 1	(Not Reported)
+ - 2	Andorra
+ - 3	Bahamas
+ - 4	Canada
BT	Total

Selecting "+" on row 2 will add a new third row between Andorra and Bahamas.

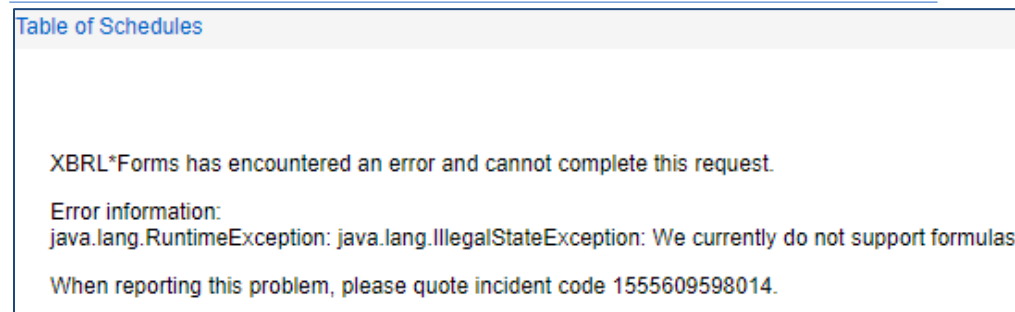

Selecting "-" on row 4 will remove the entire fourth row.

**Upload Process**

To upload a completed Excel template, open the Cash Flows Return in REEFS and select 'Upload: Excel Document' from the upper right-hand menu. Choose the file and select 'Upload'. Review the uploaded data for accuracy then select 'Validate' from the upper right-hand menu to start the submission process.

**Cautions:** Data in the Excel template will not be fully uploaded to REEFS if any fields contain formulas, or if monetary values contain more than two (2) decimal places (i.e. Inflows USD Equivalent and Outflows USD Equivalent). Attempting to upload an Excel template with formulas will result in the error message in Figure 2, below. The values in any monetary field with more than two (2) decimal places will be lost during the upload process. Reporting entities should review all numeric values and ensure that all formulas entered in the Excel template are converted to values prior to uploading into REEFS.

**Figure 2: Error Message When Importing Data with Formulas**

**Validation Rules**

REEFS applies a number of basic validation rules against all submissions to ensure data integrity and conformance to reporting requirements. Depending on the nature of the discrepancies found by each validation rule, an error or warning will be generated. If the validation rules expose errors in a filing, the filing cannot be submitted until the errors are addressed. If the validation only generates warnings, then the filing can be submitted if the reporting entity determines that no amendments are necessary.

## CASH FLOWS RETURN SCHEDULE

### ***Descriptions and Guidance***

Report the sum of all relevant cross-border payments that were received from and sent to each respective country. Relevant cross-border payments include wire transfers and remittances but may also include other forms of electronic transfers and payment systems where monies are transferred into and out of the Cayman Islands. Do not include non-transactional messages such as queries related to previous payments.

Non-resident banks, such as branches of banks that are not incorporated in the Cayman Islands, should only report payments related to the accounts of the Cayman Islands branch, or for the benefit of customers of the Cayman Islands branch.

Where there are no cross-border payments to report, regulated entities should submit a nil filing.

### ***Decimals and Exchange Rates***

All figures entered on this return are to be reported to the nearest US Dollar or to a maximum of two (2) decimal points for monetary items. For example, one million US Dollars should be entered as "1000000".

All non-US balances should be translated to their US dollar equivalent using the rate of exchange prevailing as at the last day of the reporting period.

Description	Guidance
<b>Country</b>	<p>Country of origin or initial ordering country for cross-border payments received by the regulated entity (inflows). Also the end beneficiary country for relevant cross-border payments sent by the regulated entity (outflows).</p> <p>Select the country of origin and/or end beneficiary country from the drop-down list.</p> <p>Note: if using the Excel template, the country name must correspond to the English short name of the ISO 3166 International Standard. See the ISO website for the list of ISO 3166 countries. <a href="https://www.iso.org/obp/ui/#search/code/">https://www.iso.org/obp/ui/#search/code/</a></p> <p>You may report the inflows and outflows of a country on separate lines.</p>
<b>Inflows Total (USD Equivalent)</b>	<p>Enter the aggregate USD equivalent of all relevant cross-border payments received from the country of origin.</p> <p>Report all amounts to the nearest dollar or to a maximum of two</p>

	<p>(2) decimal places. For example, US\$8,000,784.4325 originating from 'Country X' should be reported as 8,000,784 or 8,000,784.43</p> <p>For bank branches, include <u>only</u> payments related to the accounts of the Cayman Islands branch or for the benefit of customers of the Cayman Islands branch.</p> <p>Note: if using the Excel template, values with formulas will generate an error during the upload process and values with more than two (2) decimal places will be omitted.</p>
<b>Inflows Volume</b>	<p>Enter the total number of relevant cross-border payments received from the country of origin.</p> <p>E.g. '20' for twenty (20) payments received from Country X during the quarter ended March 31<sup>st</sup>.</p>
<b>Outflows Total (USD Equivalent)</b>	<p>Enter the aggregate USD equivalent of all relevant cross-border payments sent to the end beneficiary country.</p> <p>Report all amounts to the nearest dollar or to a maximum of two (2) decimal places.</p> <p>For bank branches, include <u>only</u> payments related to the accounts of the Cayman Islands branch or on behalf of customers of the Cayman Islands branch.</p>
<b>Outflows Volume</b>	<p>Enter the total number of relevant cross-border payments sent to the end beneficiary country.</p> <p>E.g. '40' for forty (40) payments sent to Country X during the quarter ended March 31<sup>st</sup>.</p>
<b>Payment Data Included</b>	<p>Enter the method or type of payment for inflows and outflows to each Country. Available options: SWIFT, CHAPS, BACS, FASTER PAYMENTS, CIPS, RIPPLE, and Other...</p> <p>Note: if using the Excel template, any values other than the available options will generate an error.</p>
<b>Payment Data Other</b>	<p>This field is mandatory if 'Other...' is selected as the response for Payment Data Included. Enter the method or type of payment for inflows and outflows to each country.</p>
