EXTERNAL RELATIONS

D1 – Dealing With Requests For Assistance From an Overseas Regulatory Authority (ORA)

A. Legislative Framework

The responsibility of the Cayman Islands Monetary Authority (The “Authority”) to provide assistance to overseas regulatory authorities arise from the cooperative functions of the Authority under Section 6 (1) (c) of the Monetary Authority Law (2013Revision) (“the MAL”). See Appendix D1a attached. The scope of the duty is set out in more detail in sections 50 (3) to (8) and 51 of the MAL (Appendix D1b).

The Authority will generally assist an ORA in the exercise of its regulatory functions including the conduct of civil and administrative proceedings to enforce laws, regulations and rules administered by the ORA. It may also consent to the use of information shared for the purposed, the criminal investigation or prosecution of a charge which pertains to the contravention of laws and regulations administered by the ORA or to assist self regulatory organizations with surveillance and enforcement activities where it is involved in the supervision of conduct that is the subject of the request.

An ORA is defined in Section 2 of the MAL as “an authority which, in a country or territory outside the Islands, exercises functions corresponding to;

- a) any of the regulatory functions of the Authority; or
- b) any additional functions as may be specified in regulations including the conduct of civil and administrative investigations and proceedings to enforce laws, regulations and rules administered by that Authority”.

As no regulations have been enacted to date only paragraph (a) of the above definition is relevant for the purposes of these procedures.

Pursuant to Section 34 (9) of the MAL, (Appendix D1c) where the Authority is satisfied that assistance should be provided to an Overseas Regulatory Authority (ORA) the Authority may issue a direction to a person to provide specified information, produce specified documents or give specified assistance.

Under Section 51 of the MAL (AppendixD2) the Authority may, through consultation with the Financial Secretary, engage into a Memorandum of Understanding with Overseas Regulatory Authorities. The Financial Secretary shall be notified by the Authority of each MOU and the MOU is to be published post-haste into the Gazette. The Authority must act in accordance with the MAL.

B. Procedures

Where a request from an ORA is received by the Authority the following procedures shall apply:-

The supervisory or other division/department receiving the request, shall as a general practice within 24 hours of receiving a request forward a copy of the request along with a standard form to the Legal Division which addresses the following matters:-

- a) the name of the requesting authority;
- b) the nature of the information or other assistance requested such as the description of the facts underlying specific questions to be asked and sensitivity of the matter;
- c) whether the entity or person which is the subject of the request is regulated by the Authority and/or whether the information requested is likely to be found in the Cayman Islands.
- d) the information requested serves no other purpose than those directly related to fulfilling a supervisory and/or regulatory function of the Requesting Authority i.e. a valid purpose;
- e) the information requested serves the purpose of ensuring compliance with Laws and regulations related to the request or Requesting Authority; or
- f) the information requested shall not be used for any other purpose than those specified in the request or will not be disclosed without prior consent

Upon receipt of a request for assistance by the Legal Division it will first determine whether or not the requesting body falls within the definition of an ORA within the terms of Section 2 of the MAL. In deciding whether assistance should be granted, regard should be given to the matters set out in sub-section (2) and (3) of the Section 6 of the MAL.

In addition to the matters in section B above, the Legal Division will review all requests for assistance against the criteria set out in Section 50 (4) such as whether;

1. corresponding assistance would be given to the Authority in the recipient jurisdiction
2. the inquiries relate to a breach of a legal requirement which has a parallel or involves the assertion of a jurisdiction recognized in Cayman Islands.
3. it is in the public interest to give the assistance sought

and the conditions in Section 50 (8) of the MAL which require that;

1. the Authority be satisfied that the recipient authority is subject to adequate legal restriction on further disclosures
2. that an Undertaking be provided by the recipient authority to not disclose information without the prior consent of CIMA.
4. that CIMA is satisfied that the assistance requested is intended for the regulatory purposes of the recipient Authority
5. that CIMA is satisfied that information provided will not be used in criminal proceedings against the person providing the information other than for an offence of perjury

before advising on whether the assistance requested can be provided.

The Legal Division will make a record of the request, which will include a file number. All further correspondence relating to a particular request must include a reference to the internal file number for the purpose of keeping track of the requests and making input into the ORA log kept by the Legal Division.

The Legal Division shall as a general practice, within 24 hours of receiving a copy return to the supervisory division a memorandum indicating whether or not the request is in conformity with the requirements of the MAL and noting particularly whether any further undertakings required by Law or other additional information need to be provided by the requesting ORA.

The supervisory division on receiving a memorandum from the Legal Division shall as a general practice reply within 24 hours to the ORA with the information requested or where a further undertaking required by the MAL or additional information is necessary, require the ORA to provide the undertaking or additional information before any information is provided.

The supervisory division shall as a general practice within 24 hours of responding to a request forward a copy of its response to the Legal Division for the purpose of updating the ORA log with respect to each request.

Where the request involves onward disclosure to criminal authorities for the purpose of criminal investigations, the requirements of Section 50 (3) (c)(iii) have to be met.

Where it becomes necessary to share information provided with other local, regional, state, federal or international institution, the following requirements shall be met by CIMA where it is the “Requesting Authority”:

- a. notify the Requested Authority promptly
- b. obtain prior explicit consent for onward disclosure (where necessary)
- c. prior to passing on information ensure that the recipient agrees to maintain the confidential status of the information provided and has legal authority to do so
- d. use all reasonable legal means to protect the confidentiality of the information or to resist an enforceable demand where no consent for onward disclosure has been given

All responses (other than a holding response), shall be processed by the Legal Division. The Legal Division may however request another division to respond to a particular request or to carry out related tasks to satisfy a request as the circumstances may require. Copies of any information provided (or an inventory thereof), shall be retained by the Division in question.

Where the provision of assistance to an ORA requires the Authority to exercise its powers under Section 34 (9) to direct a person to provide specified information, produce specified documents or to give specified assistance the Legal Division must review and sign off on the direction issued by the Authority.

For the avoidance of doubt, where the request for assistance is made pursuant to an MOU, the Legal division shall assess and determine each request on a case-by-case basis and the procedures outlined above will also apply.

D2 – Criteria of Memorandum of Understanding

Criteria for entering into negotiation with a view to entering into a Memorandum of Understanding

1. Rationale for the establishment of criteria

Whereas a Memorandum of Understanding (MOU) will increase the quality and timeliness of information on licensees' operations overseas, will reduce the cost of obtaining such information and will streamline the administrative processes in Cayman when requests are received, there is nevertheless a need to establish some objective criteria that an Overseas Regulatory Authority (ORA) must meet before the Authority would consider entering into an MOU with it.

The MOU itself will provide conditions to be met by each party to the Understanding.

2. The Background

An MOU between regulatory bodies facilitates cross-border co-operation on information exchange, timely access to information and the ability to verify information. All are critical to conduct effective supervision, as well as to engender the international cooperation necessary to enhance financial stability and fight financial fraud. As stated in the KPMG Review of Financial Regulation in the Caribbean Overseas Territories and Bermuda, at page 160; "It is common practice between regulatory authorities for the terms and conditions of information exchange and investigative assistance to be set out in a Memorandum of Understanding signed between the authorities which will be co-operating with each other. Memorandum of Understanding usually require requests for assistance to be framed in terms of the specific activities which are being investigated by the foreign jurisdiction...."

As stated by the Technical Committee of the International Organisation of Securities Commissions in the preamble to its Principles for Memoranda of Understanding: "MOUs are statements of intent which do not impose legally binding obligations on signatories. As such, they have no power to overcome domestic laws and regulations, nor do they affect other channels of co-operation, such as mutual assistance in criminal matters. The strength of MOUs, however, is that they facilitate the exchange of information by accommodating the differences between regulators and by responding to changing legal environments."

3. Objective criteria to be taken into account

- 3.1 Nature of the ORA in terms of powers, duties and functions and its reputation in the international financial regulation community, in particular the jurisdiction's membership of and adherence to international standards of relevance. e.g. IOSCO, Basel, IAIS. Also, the impact upon the financial industry consequent upon entering into

the MOU in that negative publicity may invalidate the benefits of co-operation.

- 3.2 Nature of the requesting authority's jurisdiction, including whether its legal system provides for similar legal protections to those existing in the Cayman Islands. In particular, whether confidentiality laws are similar to that of the Cayman Islands and whether or not it respects the Rule of Law. Whether domestic secrecy or blocking laws, regulations and policies exist relating to the collection and provisions of information to foreign authorities. Such matters should be provided for in the MOU itself. The KPMG review also advised that; "Memoranda of Understanding should only provide for the exchange of confidential information when the foreign regulatory authority has demonstrated that they will be able to safeguard the confidentiality of information provided by the OT regulator." (p.160)
- 3.3 The ORA's laws, regulations and policies on the use of information and due process and enforcement powers should be consistent with that of the Authority.
- 3.4 A commitment to reciprocity should be made in the MOU itself but in addition, the Authority should be reassured that reciprocal assistance would be given by the ORA. In short there must be a clear benefit to Cayman in all respects.
- 3.5 Frequency and nature of requests for assistance received from and served upon the ORA in question. Where there have been numerous requests for assistance in the past then the jurisdiction may be considered for entering into an MOU subject to the other criteria.
- 3.6 Nature and extent of existing relationship with the ORA and past history of co-operation. One or more of the regulatory divisions of the Authority may have had past or on-going dealings with the ORA in question, and this should provide useful information which will be utilised in making the decision as to whether or not a MOU should be entered into with the ORA.
- 3.7 Consideration should also be given to whether there is a mutual recognition of the equivalency of AML/CFT legislation between the two jurisdictions and if not, why not.

4. Further considerations

- 4.1 The criteria set out above will often form part of the conditions for the MOU and wherever possible should be provided for in the MOU itself.
- 4.2 The criteria set out in 2 above will be applied by the Authority when considering an ORA with a view to entering into an MOU with that ORA. Once it is concluded that the agreed criteria are satisfied, then the Model MOU, as approved, will be used, subject to such necessary

amendments as approved by the Cabinet in accordance with the Approval Process determined by the Cabinet.

5. Multilateral MOUs

Multilateral MOUs are MOUs established by regulatory standard setters (eg. IOSCO or IAIS) or groups of regulators normally from different countries (although different regulators from the same countries can be parties to a multilateral MOU). In the context of an MMOU the signatories agree that they will be bound by the common standards and obligations covered by the MMOU. When considering whether to recommend that the Authority become a signatory to the MMOU many of the considerations referred to in paragraph 3 above are applicable (eg. reciprocity). In addition the Authority will need to take into account the criteria set out in 5.1 to 5.3 below.

- 5.1 The MMOU itself should contain appropriate grounds for denial of a request where a request from another signatory authority would require the Authority to act in a manner inconsistent with domestic laws or the public interest.
- 5.2 The benefits to be gained by the Authority and the jurisdiction should outweigh any negative costs involved in the Authority becoming a signatory to a MMOU.
 - 5.2.1 One of the benefits to consider would be whether entering into the MMOU would enhance the international reputation of the Authority and the Cayman Islands as a jurisdiction that adheres to appropriate international standards involving international cooperation.
 - 5.2.2 One of the costs to consider would be whether there would be an undue strain on the resources of the Authority in meeting the obligations under the MMOU.
- 5.3 The existing and/or potential signatories should be from jurisdictions that generally respect the rule of law and have broadly equivalent protections for the rights of persons likely to be impacted by the exchange of information under the MMOU.

THE SUPERVISORY APPROACH - LICENSING PROCESS

E1 – Procedures for Dealing with Licensing & Supervisory Matters

1. Introduction

As a result of operational independence of the Cayman Islands Monetary Authority (“CIMA”) decision-making is vested in the Board of Directors of the CIMA.

Government sets licensing fees and CIMA is the conduit through which licensing fees are collected and paid to Government.

2. Responsibilities

CIMA has two committees mandated to handle licensing and supervisory functions. An Executive Committee of the Board (“Executive Committee”), comprised of locally based directors and a Management Committee (“MC”) comprised of select members of CIMA’s senior management.

Executive Committee

With the exception of any matters on which the MLRO is obliged to report pursuant to the Money Laundering Regulations, the Executive Committee has responsibility for **all** enforcement decisions, and new licence applications under the Securities Investment Business Law (2015Revision), where that institutions does not already hold a licence from the Authority.

Management Committee

The MC has responsibility for licensing and supervisory matters as detailed in Appendix E2.

Licensing is the primary function of the MC. In addition the MC is responsible for consideration and initiation of enforcement actions, and any other matters that the Board may decide to delegate to it from time to time.

The MC may review a paper and decide that the scope of the matter is beyond the authority of the MC, and/or it may also prefer to seek the advice of the Executive Committee on specific matters. In such instances the paper is submitted onwards to the Executive Committee, together with all relevant information, including the MC’s recommendations.

3. Composition & Quorum

Executive Committee of the Board

The Executive Committee is comprised of six locally based CIMA directors, including the Chairman and Deputy Chairman of the Board of Directors. A quorum of three local directors is required in order for a meeting to be properly constituted. A decision is made by majority vote of those present.

Management Committee

In pursuit of its functions, the Board may delegate to a sub-committee or the Management Committee (MC) such licensing, supervisory and other powers and duties that the Board sees fit. A decision of the MC shall be deemed to be a decision of the Board, as the powers of the amended Law are vested with the Board.

The MC is comprised of the Managing Director as Chairperson, the Deputy Managing Director, the Legal Counsel and the Heads of the supervisory divisions or such person as may be designated by the Head to act in his or her absence. There are currently four regulatory Heads on the MC, representing the Insurance Supervision Division, Banking Supervision Division, Fiduciary Services Supervision Division, and the Investments and Securities Supervision Division. In addition, the Managing Director may, with the approval of the Board, designate such other senior officer of the Authority to sit on the Management Committee. A quorum of at least two of the Heads of the supervisory divisions must be present in addition to the Chairperson in order for a meeting to be properly constituted. The Chairperson's alternate may be any one of the Deputy Managing Director, the General Counsel, or the Head of a regulatory division not already included in the quorum, or in their absence, such other member of the MC as designated by the Managing Director. A decision is made by majority vote of those present.

4. Conduct and Conflicts of Interest

Executive Committee of the Board

Members of the Board are required to adhere to a strict Code of Conduct, Conflicts of Interest Code, and to the provisions of the Monetary Authority Law and to declare any conflicts of interest, including making an annual declaration of any conflicts of interest. (Appendices C2 and C3)

Management Committee

Members of the MC are required to adhere to a strict Code of Conduct and are required to declare any conflicts of interest. (Appendix C4).

5. Meetings

Executive Committee of the Board

The Executive Committee meets on Tuesday mornings as and when necessary, and all papers, including key background documents and file folders, must be submitted to the Executive Assistant to the Managing Director by 4:00pm on the preceding Tuesday for inclusion on the Agenda. In exceptional circumstances, papers received later than the preceding Tuesday may be brought before the Executive Committee for consideration, but the Chairperson must approve inclusion of a late paper. At each Executive Committee meeting, minutes are recorded, confirmed and retained.

The agenda and the supporting materials must be circulated to the local directors present in the Island no later than the preceding Friday. The agenda and supporting papers must be circulated by secured email to the foreign directors. Minutes of the meetings must be circulated to all directors by email within 3 working days of the meeting.

Management Committee

The MC meets weekly on a Tuesday morning, and all papers, including key background documents and file folders must be submitted to the Executive Assistant to the Managing Director by 4:00pm on the preceding Wednesday for inclusion on the agenda. In exceptional circumstances, papers received later than the preceding Wednesday may be brought before the MC for consideration, but the Chairperson must approve inclusion of a late paper. At each MC meeting, minutes are recorded, confirmed and retained by the Executive Assistant to the Managing Director.

6. Preparation of Papers for Approval

Management Committee

All papers (see samples Appendix C5 & C6) must be approved by the relevant Head of Division or in his/her absence the Deputy Head before submission to the MC for pre-approval/approval as appropriate. All papers must initially be emailed to the Executive Assistant to the Managing Director who will insert reference number details. The Executive Assistant to the Managing Director posts referenced papers electronically to the 'MO Submissions' folder on the internal computer network, in order that members of the MC may consider the paper in advance of the weekly meeting. At the time of posting the paper electronically, the file containing all pertinent information about the licensee with a signed copy of the submission must be forwarded to the Executive Assistant to the Managing Director, in order that all documentation may be available during the MC meeting as may be required.

Executive Committee of the Board

Prior to a paper going forward to the Executive Committee it is subject to the procedure outlined above for MC pre-approval. The paper must be prepared in the format as outlined in Appendix C6. Once the MC approves a paper for onward submission to the Board the relevant Head informs his/her division and 9 copies (1 copy must be signed and retained by the Executive Secretary for his/her files) of the paper (on green copy paper) together with all pertinent files and documentation, are delivered to the Executive Secretary to the Board for addition to the Executive Committee's weekly agenda.

Cabinet

Some functions of the CIMA remain the responsibility of Cabinet e.g. the issue of directives or regulations under the MAL. Prior to a paper going forward to Cabinet, it will have gone through the procedures outlined above for MC pre-approval and Executive Committee approval. Once approved by the Executive Committee the Executive Secretary forwards the paper to Cabinet through the Financial Secretary for consideration.

7. Records & Extracts

A log of every paper received for consideration by the MC or the Executive Committee is retained in the Managing Director's office. Each paper is recorded and allocated a meeting number and an item number. Extracts (see sample Appendices

C7a & C7b) is produced on yellow copy paper for all licensing/supervisory decisions taken by the MC or the Executive Committee. A copy of each extract is forwarded to the Head of division from which the paper emanated. A master file containing all extracts is held in the Managing Director's office.

8. Licence Issuance, Communication & Gazetting

If the MC or Executive Committee approves a paper, CIMA takes the appropriate action and communicates the decision to the relevant parties in a timely manner. Once the extract of a decision taken by the MC or Executive Committee has been completed/issued, the Executive Secretary to the Board acts in accordance with the decision. The MD is empowered to issue all licenses approved by the MC and the Executive Committee. If a licence is to be issued, the Head of the relevant regulatory division arranges for the licence to be prepared and submitted to the Managing Director's office for signature. Once licences or other associated paperwork are signed, they are returned to the Executive Secretary, in order that the necessary documentation may be despatched to the applicant and copied to the division.

The Head of the Investment & Securities Division is empowered to sign certificates for all registered funds approved by the Division.

Each division must ensure that those matters, which require gazetting or publication on CIMA's website, are forwarded to the Executive Secretary for publication in a timely manner.

9. Reporting

The Managing Director provides quarterly reports to the Financial Secretary covering the following areas.

- Board Meetings convened
- General Policy Issues
- Overview of the Regulatory Divisions, detailing any trends and initiatives happening in the domestic and international markets
- International Initiatives
- Summary of Number of Licences (using comparatives)
- Comparison of Budgeted Revenue and Actual Revenue collected to date

F2 – Procedure for the Granting of Extensions for the Filing of Supervisory Reports

Granting an Extension

The Authority may grant extensions to licensees for the filing of supervisory reports, which include quarterly un-audited forms, reports, schedules, the annually audited financial statements, and the annual report of the Parent/Group where applicable.

Deadline for filings

The quarterly un-audited Forms and Schedules are required by the Authority to be filed within 21 days following the quarter end.

The audited financial statements are required by the Authority to be filed within three months following the financial year- end.

Inability to meet deadline

In the event that a licensee is unable to meet the deadline for filing their reports they may request an extension from the Authority for filing the reports.

Considerations for granting an initial extension

For banking licensees the Authority will grant an extension where there are no supervisory concerns with the licensee. The Authority will grant a two-week extension for the filing of the quarterly un-audited Forms and Schedules, and a one-month extension for the filing of the annually audited financial statements and/or annual report of the group.

For Mutual Funds and Mutual Fund Administrators, the Authority will only grant an extension of one-month to the submission deadline for the filing of the of audited accounts if the fund is up to date with the payment of fees and the submission of the previous year(s) financial statements.

Considerations for granting an additional extension

Further extensions requests for the filing of quarterly un-audited Forms and Schedules must be provided to the Authority in writing with an explanation acceptable for the extensive delay prior to the Authority granting any further extension.

Further extensions requests for the filing of annually audited financial statements/annual report must be provided to the Authority in writing with an acceptable explanation for the delay, along with confirmation that a draft copy of the financial statements will be submitted to the Authority as soon as possible.

Log the Extension in MARS

Once an extension has been granted to a licensee for filing either its quarterly un-audited Forms/Schedules or its annually audited financial statements the extension period must be logged MARS System. This prevents an overdue notice being generated during the extension period.

Issue the approval letter and place a copy of the correspondence on the licensee’s file

For Mutual Funds the initial letter must state that further extension will require a letter from the fund’s auditors explaining the reason(s) for the delay.

LIST OF EQUIVALENT JURISDICTIONS**G1 – List of Countries and Territories Deemed to have Equivalent Legislation**

The List of Countries and Territories Deemed to have Equivalent Legislation are those considered to have a money laundering legislation that is equal to or more rigorous than the money laundering regulations of the Cayman Islands and consequently provides a level of comfort to licensees and persons/entities conducting relevant financial business with persons and entities based in these countries/territories.

The list will be maintained by the Anti-Money Laundering Steering Group through consultation with the Authority. Furthermore, the list will be published on the Authority’s website, on any other government website determined by the AMLSG and in the Gazette.
